

# AHMED SAKR

CGI ARTIST · DIGITAL PRODUCT DESIGNER

A multidisciplinary designer turning flat screens into **spatial experiences**. From engineering immersive Anamorphic DOOH campaigns to designing intuitive Web Applications, I combine artistic vision with technical precision. In essence, I build digital experiences that are not just visually striking, but usable, scalable, and driven by the latest in Generative AI.

**Location**

Alexandria, Egypt

## Skills

### LANGUAGES

**Arabic:** Native Speaker

**English:** Professional Proficiency

### PROMPT ENGINEERING

Fluent in LLMs & Generative AI communication

### TOOLS & TECH

#### 1. Generative AI & Synthesis

ComfyUI

Gen AI Stack: **Freepik**

#### 2. 3D & Real-Time Engines

Blender

Unreal Engine

#### 3. Product Design & UI/UX

Figma

Anti-Gravity AI

#### 4. Video & Motion

Premiere Pro

#### 5. Texturing & Post-Processing

After Effects

Affinity Photo

## Experience

### Freelancer 3D Artist & Digital Product Designer

Remote, Part-Time

- Engineered AI-driven Web Apps using "Vibe Coding" & 3D integration
- Crafted end-to-end Brand Identities merging UX logic with high-end CGI

OCT 2024 – PRESENT

### 3D Artist @ViralX Dubai

JUN 2025 – PRESENT

Remote, Part-Time

- Produced viral Anamorphic DOOH visuals, boosting audience dwell time
- Optimized Blender pipelines for high-speed commercial delivery

### Social Media Specialist / Graphic Designer

@CairoChem EGY

MAY 2024 – MAY 2025

On-Site, Full-Time

- Directed visual content strategy & product packaging for market expansion

### Product Compliance Consultant

@ComplyMarket DE

FEB 2024 – MAY 2024

Remote, Full-Time

- Leveraged AI tools to streamline international product compliance data

## Expertise

### 3D & IMMERSIVE MEDIA

- DOOH & Anamorphic Billboard Design
- Hyper-Realistic Product Visualization
- Physics Simulation & Motion Graphics

### PRODUCT & STRATEGY

- SaaS & Web Application Design
- Scalable Design Systems
- Spatial UI Concepts (3D Interfaces)

### TECH & AI INNOVATION

- Vibe Coding (AI-Native Prototyping / AI-Assisted Web Dev)
- Generative AI Workflows (ComfyUI, Freepik)
- Interactive Web Experiences
